

## **Winkler WSC Planning for the Future**

In order to be prepared for future growth in our service area and insure adequate high quality reliable water, Winkler WSC employees and its Board of Directors are proactively planning for this anticipated growth.

As well as applying for and being awarded the AMPSS program, Winkler WSC is actively researching new technology, upgrading existing technology, looking for additional funding opportunities and speaking with other water systems all as part of its new MOVE WINKLER FORWARD initiative and planning.

We will continue to communicate progress and exciting new technology implementation as we go forward.
